

JOINT PHARMACEUTICAL ANALYSIS GROUP – SHORT PAPERS IN PHARMACEUTICAL ANALYSIS

Tuesday 11 September 2007

- | | |
|--|-------------|
| 007
Electrical impedance analysis of nutraceutical formulation stability in the frozen state
<u>C. Martin</u> , C. Ross, T. Peacock and K.R. Ward | 15.15-15.30 |
| 008
The Effect of Anticoagulants on the Distribution of Chromium (VI) in Blood fractions
<u>G.A. Afolaranmi</u> , J.N.A. Tetey, D. Littlejohn, H. Murray, R.M.D. Meek and M.H. Grant | 15.30-15.45 |
| 009
A new method for rapid, reliable and effective polymorph screening
<u>J.C. Burley</u> | 15.45-16.00 |
| 010
An investigation into the use of x-ray powder diffraction (XRPD) for the analysis of intact tablets
<u>C.A. Barnes</u> and D.J. Busby | 16.00-16.15 |
| 011
Microemulsion high performance liquid chromatography method for the determination of terbutaline in urine samples
<u>M. Althanyan</u> , B.J. Clark and K.H. Assi | 16.15-16.30 |
| 012
Ferulic acid assay and its relevant use in quality assurance of medicinal herbs
G.H. Lu, <u>K. Chan</u> , K.S.Y. Leung, S.Q. Cheng and Z.Z. Zhao | 16.30-16.45 |
| 013
Sensitive and specific liquid chromatography-tandem mass spectrometric (LC-MS/MS) method for estimation of digoxin in human serum
<u>K. Hemanthkumar</u> , V.A. Sam, P. Rathanakar, K. Chandramohan, S.S. Savale, G. Sundar, T. Singh, S. Nagraj and A.S. Arvind | 16.45-17.00 |
| 014
A rapid and sensitive method for simultaneous determination of carboxylate and lactone forms of irinotecan HCl by ultraviolet high-performance liquid chromatography
<u>F. Esmaeili</u> , S.K. Hasheminein and R. Dinarvand | 17.00-17.15 |
